Planning condition record

Specify the fitted mode, the permitted hours and the site observation point.

Firm / organisation

Client / matter reference

Condition, room or investigation reference

PRICE AND ORDER BASIS

€449 per single-site box / £395 UK

First-year mobile service and access to the private PDF record are included. Check destination VAT and the full delivered price on your supplier quotation.

SPECIFICATION

Choose one fitting: sound level, brightness or gate movement. Record the planning reference, condition wording and permitted hours in the file.

RECORD SUPPLIED

Numeric sound levels or brightness readings at five-minute intervals, or dated gate openings and closures. Download the dated timeline PDF for the file.

USE IN THE FILE

Compare recorded times with the written condition. Sound levels cannot identify a source or give a Class 1 acoustic result. Gate openings cannot establish the number of vehicles. The authority decides any breach.

DELIVER DIRECT TO THE CLIENT

Delivery name, address and Eircode / postcode

Self-install with permission. Pre-configured dispatch within 10 working days of an accepted order.

Agree the cost with the client before ordering. Record the actual supplier invoice and applicable tax treatment on the matter ledger. Keep this completed copy in the client file.
